COMPANY HISTORY

Guide Valve Limited, since it's inception, has been committed to excellence in the service and support of Canadian businesses. It's strategy of constant innovation and growth through vertical integration has solidified its reputation in the Canadian industries that it participates in as a quality, reliable, and stable provider of valves, actuators, and process solutions. It's major brands – GVS and VCI have been awarded many certificates towards safety and environmental responsibility and adhere to the strictest industry standards.
